IMPORTANCE OF OIL LUBRICATOR IN AIR-TOOLS.

"Smsn" recommends to use Mini-Oil Lubricator along with every Pneumatic Air Tool. As the oil from the mini-oil lubricator keeps on lubricating the internal mechanical parts of Pneumatic Air tools.

Main Advantages of using the mini-oil lubricator are as follows :-

1. Oil lubrication helps the mechanical parts within the Air tools to function properly.
2. It helps in reducing the daily mechanical maintenance of changing spare parts.
3. It helps to increase the life of Air tool.
